Federal Railroad Administration  
1120 Vermont Avenue NW  
Washington, DC 20590

To Whom It May Concern:

The Turtle Creek Industrial Railroad is requesting a waiver on subpart 223. Glazing standards for our locomotives 462 and 550. Our replacement glass is safety glass, but not glazed. Our local F.R.A. Administrator is recommending we apply for this waiver. Our railroad is located in a very rural area and we have never had a problem with this.

Please call with any questions. (724-327-0280).

Sincerely,

**Turtle Creek Industrial Railroad**

Jim Norris
